· IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In Application of:

Mike Bowling et al.

Serial No.: 10/630,290

Filed: July 30, 2003

For: Method of Wastewater Treatment
Utilizing White Rot and Brown Rot Fungi

Mail Stop Petition
Commissioner for Patents
P. O. Box 1450
Alexandria, Virginia 22313-1450

RESPONSE TO DECISION REFUSING STATUS UNDER 37 CFR 1.47(a)

Sir:

The Applicant has received the Decision dated August 20, 2004. The initially filed Petition was initially dismissed for being deficient as related to 37 CFR 1.47(a)(1) and (2).

Specifically, the Senior Petitions Attorney observed that the petitioner should provide, with a renewed petition, a copy of the statement in which the non-signing inventor refuses to sign the Declaration. A portion of the July 18, 2003, letter received from the non-signing applicant is provided. Included in that letter is a statement that: "Therefore, I am returning the Declaration unsigned." The remainder of this letter, as the initial petition states, attributes the technology to others, but after a review of the allegations, no substantiation of Mr. Adams' allegations could be corroborated by the Applicant. In fact, Mr. Adams refers to a confidential report that was prepared at and for the applicant as being prior art. It is important to remember that at or about the time of the filing of this application, the applicant's company and the non-

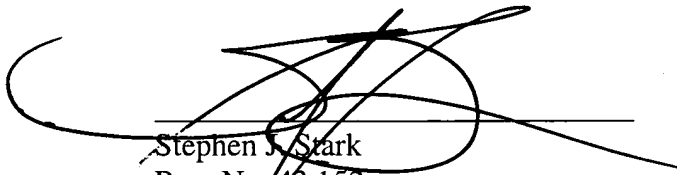

signing inventor were involved adversely in litigation in the Hamilton County, Tennessee, court system.

With regard to Item (2), the applicant appreciates the Senior Petitions Attorney indicating that the Declaration would be acceptable if the signature block of the non-signing inventor is left blank. Enclosed is a substitute Declaration with the non-signing inventor's block left blank.

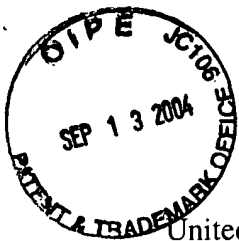

The Senior Petitions Attorney indicated that a filing fee surcharge of \$65.00 for a proper Declaration not present upon filing, was charged to the Deposit Account.

Accordingly, as instructed by the Senior Petitions Attorney, this is believed to be a complete response to the Dismissal and the proper paperwork is now believed to be in order for granting the Applicant's petition.

Respectfully submitted,

Stephen J. Stark

SUPPLEMENTAL PETITION

**Declaration Under 35 U.S.C. §118
and C.F.R. 1.47 (b) - Proof of Refusal
To Sign Application Papers**

I, Stephen J. Stark, hereby state the following and declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon:

1. That I am an attorney in the State of Tennessee and a Patent Attorney registered before the U.S. Patent & Trademark Office. My Registration number is 43,152.

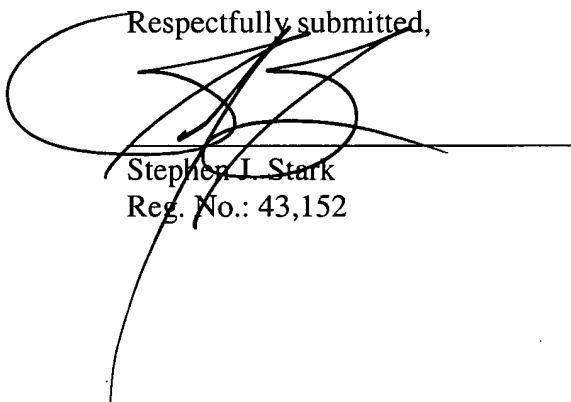

2. The Petition filed concurrently with the filing application is incorporated by reference and a copy of which is attached hereto as Exhibit A.

3. I received a letter dated July 18, 2003, from the non-signing inventor. As a portion of this letter, the non-signing inventor stated: "Therefore, I am returning the Declaration unsigned." This inventor was provided with the application papers, the specification claims, and filing papers (there were no drawings filed with this application). See Exhibit B.

4. The Declaration of Mike Bowling is provided as Exhibit C.

Further I state not.

Respectfully submitted,

Stephen J. Stark

PETITION

**Declaration Under 35 U.S.C. §118
and C.F.R. 1.47 (b) - Proof of Refusal
To Sign Application Papers**

I, Stephen J. Stark, hereby state the following and declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon:

1. That I am an attorney in the State of Tennessee and a Patent Attorney registered before the U.S. Patent & Trademark Office. My Registration number is 43,152.

2. That I represent Sorce, Inc. ("Sorce") a corporation having an address at P. O. Box 1493, (6613 Schooner Bay Lane), Hixson, Tennessee 37343, and I am authorized to make this Petition in behalf of Sorce.

3. That I prepared a patent application as attorney for Sorce entitled "Method of Wastewater Treatment Utilizing White Rot and Brown Rot Fungi." That investigation of the facts showed that Mike Bowling and Phil Adams were joint inventors in this application.

4. On June 30, 2003, I provided Sorce with a copy of the enclosed patent application with the filing papers. All the filing papers including the enclosed Assignment and Powers of Attorney except for the Declaration were signed by both inventors on July 7, 2003. Apparently both inventors overlooked the Declaration which was located at the end of the patent application.

5. Upon return of the documents, I realized that the Declaration was unsigned. The application with the Declaration was then returned to Sorce, Inc., for signing by both inventors.

6. Prior to receiving a returned and executed copy of the Declaration from both inventors, Mr. Adams terminated his employment status with Sorce, Inc. with the parties apparently being at least somewhat unamicable toward one another at this time.

7. On or about July 16, 2003, I was informed of Mr. Adams' departure from Sorce, Inc. I sent by Federal Express a copy of the application with the Declaration and requested that

Mr. Adams sign the Declaration as it was his duty to do so under the Assignment he had already executed.

8. Mr. Adams returned the Declaration and application to me unsigned along with a statement wherein he attributed at least some of the claimed subject matter as being obtained from another party.

9. The information proposed by Mr. Adams was investigated by Sorce, Inc. Apart from self-serving statements, no proof of inventorship by the third party was located in any references cited by Mr. Adams which could be considered prior art.

10. Upon information and belief, Mr. Adams is competing with Sorce possibly using the claimed subject matter to the detriment of Sorce.

11. The Assignment shows that Sorce, Inc. is the proper owner of this application is enclosed.

12. A power of attorney from Mr. Adams is enclosed.

13. Sorce, Inc. has informed me that they do not believe the assertions made by Mr. Adams as it relates to derivation from another party. Sorce, Inc. questions the veracity of the statements made by Mr. Adams in light of his initial actions as they relate to signing all the

documents but the one overlooked document on July 7, 2003, and then after terminating his employment with Sorce, Inc. immediately disavowing patentability of the subject matter.

14. Consequently, it is submitted that a bona fide attempt has been made to have Mr. Adams execute the patent application papers for the subject application and that this attempt has proven fruitless.

15. Therefore, Sorce, Inc., asserts title of the above recited application and request that the filing date and serial number be granted for this application, and I, as having power of attorney from Mr. Adams and representing Sorce, Inc. the assignee of Mr. Adams' rights to this application as its attorney, have executed the Declaration on behalf of Mr. Adams.

16. That having shown refusal of Mr. Adams to execute the application, and that title to the application vests in Sorce, Inc., and that irreparable harm will occur if this Petition is not granted, it is hereby requested that the Petition be granted.

17. That the Petition fee under 37 CFR 1.17 (c) of \$130.00 is enclosed herewith.

Further I state not.

Respectfully submitted,

Stephen J. Stark

I have been worried about this patent application since Mike and I began the process. My mind was putting doubt about “our new technology”. However, I put off those doubts in the excitement of the company filing and having my name attached to a patent. It was a blessing in disguise that we forgot to sign the Declaration.

test the wastewater at _____ We had _____ with their products and process to prove to the technology was credible. I have attached their report that was sent to me on _____. This report clearly demonstrates the 81.91% color removal from the _____

Therefore, I am returning the Declaration unsigned.

Sincerely

A handwritten signature in cursive script, appearing to read "Phil Adams".

Phil Adams
